# COOKIES POLICY

This website uses own and third-party cookies to improve the services provided on it through analysis of user browsing habits. If you continue to browse, you will be considered to have accepted the use of these cookies.

For the purposes of this policy, 'continue to browse' means clicking any button, ticking any checkbox, clicking any link, downloading any content or scrolling.

Cookies are files that are installed on any computer accessing our website for the purposes described on this page.

The application we use to obtain and analyse browsing information is:

Google Analytics:  
<https://www.google.com/analytics>

This application was developed by Google, who provide the audience analysis service for our website. This company may use the data to improve their own services and to offer services to other companies. You can find out more about these other uses at the links above.

This tool does not obtain data regarding users' names or surnames or the postal address they are connecting from. The information obtained is in relation, for example, to the number of pages visited, the language the site is viewed in, which social media our news is posted on, the city in which the IP address accessing our website is located, the number of users that visit us, how frequently and repeatedly they visit, how long their visits are, browsers used, the operator or type of terminal that accesses the site.

We use this information to improve our site, detect new needs and assess improvements to implement in order to provide a better service for users that visit us.
